

CelioShip

Shipment Management & Visibility Platform

The smarter way to manage every shipment.

CelioShip gives import teams one shared workspace for every shipment file, from the first draft to the closed file. Suppliers, clients, containers, Bills of Lading, insurance, inspection documents, customs milestones and money all live on the file, so anyone with access can see where a shipment stands and what happens next.

One file per shipment

Suppliers, clients, containers, dates and documents together, with a clear status: Draft, Departed, Arrived, Closed.

Documents where the work is

Bill of Lading pages, insurance per container, loading pictures and BV inspection documents, captured from a phone camera or a scanner.

Reports in English or French

Build a report, filter it, then print or export to Excel, PDF or Word, exactly as it appears on screen.

Shipment Tracking

Every departed and arrived file on one board, with transit days and waiting days that update every day.

Demurrage and alerts

A free-time clock per container, exceptions ranked by urgency, and alert rules delivered by e-mail or WhatsApp.

Costing, receivables, invoices

Expenses and client charges per file, amounts due and paid, client statements and printable invoices.

www.celioship.com

The companies, people and figures shown in the examples are fictitious sample data.

From departure to delivery

A shipment is a file. Its status tells everyone which stage it is at, what can still be edited and which clock is running.

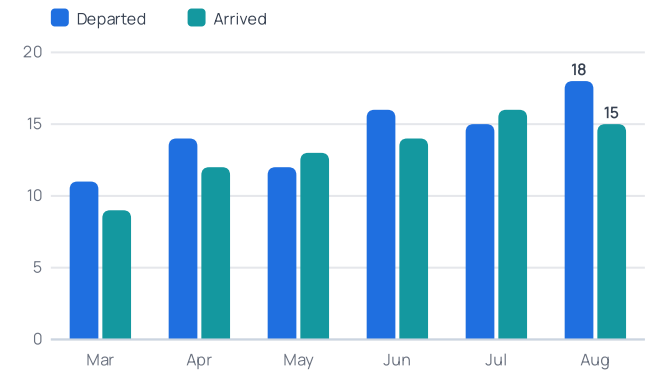

Shipment Tracking

Departed and arrived files stay on one board until they close. Three day counts are computed every day: departure to arrival, departure to today and arrival to today. A B/L number is clickable on every screen and opens its pages.

FILE	CLIENT	B/L	ROUTE	STATUS	DEP → ARR	DEP → TODAY	ARR → TODAY
2026-IMP-041	Harborview Trading LLC	MAEU226100930	Shanghai → Houston, TX	Departed	—	16 d	—
2026-IMP-039	Summit Electronics Corp.	ONEY4471823	Busan → Long Beach, CA	Departed	—	9 d	—
2026-IMP-037	Lakeshore Home Goods Inc.	MEDU441055221	Ningbo → Savannah, GA	Arrived	27 d	—	4 d
2026-IMP-035	Redwood Outdoor Supply	HLCUSHA260812	Qingdao → Newark, NJ	Arrived	31 d	—	11 d
2026-IMP-033	Bluegrass Farm Equipment Co.	CMDU883711204	Ho Chi Minh City → Charleston, SC	Arrived	29 d	—	19 d

Files departed and arrived per month

Documents on the file

- **Bill of Lading:** several pages or files per shipment, uploaded once the file has departed; the B/L number opens them from any screen.
- **Insurance per container:** certificate and receipt, with insured value, premium, currency, insurer and date.
- **Loading pictures:** up to 15 per container, taken with the phone camera and optimised automatically.
- **Choose File, Take Photo or Scan Document** wherever a document can be added.
- **BV / BIVAC** inspection documents and follow-up when a pre-shipment inspection is required.
- Private storage; every download is permission-checked and recorded.

Stay in control

CelioShip watches the clocks so your team does not have to: free time, arrivals, customs clearance and inspections.

Demurrage and free time

Each container's free-time days give it a last free day. Arrived files appear on the Demurrage board most urgent first, and the dashboard flags what needs attention today.

CONTAINER	FILE	CLIENT	LAST FREE DAY	STATUS
MSKU 812 339-0	2026-IMP-033	Bluegrass Farm Equipment Co.	2026-09-08	Overdue · 3 d
HLXU 620 118-5	2026-IMP-035	Redwood Outdoor Supply	2026-09-11	Last free day today
MEDU 441 187-2	2026-IMP-037	Lakeshore Home Goods Inc.	2026-09-13	2 d left
TCLU 905 612-7	2026-IMP-037	Lakeshore Home Goods Inc.	2026-09-15	4 d left
CMAU 731 004-2	2026-IMP-030	Coastal Textile Partners	2026-09-19	8 d left

Exceptions and My alerts

One list of everything that needs attention, most urgent first: demurrage overdue or approaching, arrival overdue, stuck in customs, BV inspection or report stalled, ETA missing, stale drafts, unassigned files. Each user acknowledges or snoozes their own alerts.

Approvals

Sensitive actions can require a second person: closing, cancelling or deleting a file, deleting master data, permission changes, access-code resets, status reverts. Nobody approves their own request. *Jessica Alvarez requested the closure of 2026-IMP-024; approved by David Chen.*

Alert rules

Company-wide rules fired by the daily sweep: file stuck in a status, arrival warning, demurrage warning, ETA missing, clearance stalled, BV stalled. Each rule has a severity and is logged, e-mailed or sent by WhatsApp.

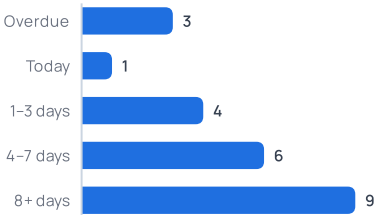

Audit history and backups

Every operational, account, access, report, master-data and backup action is recorded with who, when and what. *Sarah Whitfield marked 2026-IMP-041 as Departed, Sep 2, 2026 14:32.* Administrators create backups and restore them.

Roles and access

Four roles, **Super Admin**, **Admin**, **User** and **Viewer**, refined by per-user permissions (create a file, edit an open file, mark departed or arrived, close, assign people, manage master data, view audit history, view or manage documents) and by assignment: a user works on the files assigned to them. Several companies can share one installation with fully separated data. Each user chooses English or French; a device locks after five failed sign-ins and idle sessions expire.

Containers by remaining free time

Report, invoice, get paid

What the operations team records becomes the reports management reads and the invoices finance sends.

Reports and exports

Start from a template at file or container level, apply filters and sorting, preview, then print or export to Excel, PDF or Word. Every output carries the same header and a footer with the date and time, the user, the page number and the CelioShip signature, in the language of the report.

Reports Center

Operations & risk, Inspection, Performance & volume and Financial reports in one place: Monthly Activity, Carrier Scorecard, Customs Pipeline and more.

Costing report

Expenses, client charges and margin per file, in your currency.

Statistics

Average sea transit, clearance and total duration; results by shipping line; historical demurrage exposure; how arrivals compare with the expected date.

Receivables and invoices

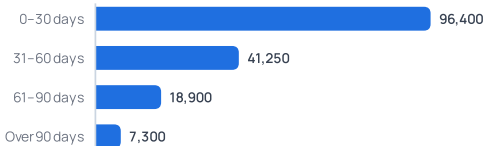

Amounts due, paid and outstanding per file; aging in 0-30, 31-60, 61-90 and over 90 days; a printable statement per client; a proforma from any file and numbered issued invoices.
